

# PrEP:

- Short for pre-exposure prophylaxis
- A daily pill to prevent HIV
- Very safe
- Highly effective, take as prescribed

## PREP IS HIV PREVENTION THAT'S IN YOUR HANDS.

### CONSIDER PREP IF YOU ARE A WOMAN WHO:

- does not use condoms during sex with partners of unknown HIV status
- wants to have sex without a condom with a partner who has HIV
- wants to have a baby with a man living with HIV
- injects drugs and share needles
- has sex for money, food, housing, drugs

### OR YOUR MALE SEX PARTNER(S) MAY:

- not use a condom during sex with others
- have sex with men
- inject drugs and share needles
- have HIV or sexually transmitted infections
